**DETAILED ACTION/EXAMINER'S AMENDMENT**

***Election/Restrictions***

1. Applicant's traversal of the restriction requirement in the reply filed on 17 May 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application is in condition for allowance except for the presence of claims 25-34 & 37-42 directed to inventions non-elected without traverse. Accordingly, claims 25-34 & 37-42 have been cancelled.
3. While Examiner notes that Applicant said that the restriction of these claims was traversed, Applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

***Examiner's Amendment***

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
5. The application has been amended as follows:
6. Cancel claims 25-34 & 37-42.

***Allowable Subject Matter***

7. Claims 58-67 are allowed.

Art Unit: 3714

8. The following is an examiner's statement of reasons for allowance: A thorough search of the prior art fails to disclose any reference or references, which, taken alone or in combination, teach or suggest, in combination with the other limitations, the lottery controller being programmed to replace one or more of the indicia of the first type from the first plurality of indicia with an indicium of a second type which are then matched to indicia of the first type in the second plurality of indicia.

9. Examiner believes this to mean that the player chooses a plurality of numbers. The system then replaces one or more of these numbers with a wild symbol. These make up the player's numbers or ticket. These numbers are then matched with the winning numbers drawn by the system. The wild indicia on the ticket may be used to match any number in the winning numbers.

10. The art is replete with keno games using wild indicia. But in each of those cases, the wild indicia are inserted in the set of winning numbers and not into the player's chosen numbers. There is no suggestion in the prior art to follow the claimed scheme, as it does not provide any advantage over the prior art.

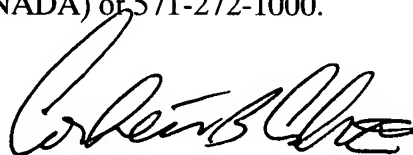

11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Corbett B. Coburn whose telephone number is (571) 272-4447. The examiner can normally be reached on 8-5:30, Monday-Friday, alternate Fridays off.
